Current Concepts & Treatment in the Rehabilitation of the Athlete

Saturday
JULY 26, 2008
7:00 a.m.–5:00 p.m.

Hyatt Regency Crown Center
Kansas City, Missouri

Sponsored by University of Kansas Medical Center, Department of Orthopedic Surgery and University of Kansas Medical Center Continuing Education

www.ContinuingEd.ku.edu

keyword: sports medicine
Overview: This healthcare program provides updated information and skills for health care professionals enabling them to improve their quality of patient care. Paired presentations will be delivered, consisting of an MD component—emphasizing current surgical concepts and new techniques in orthopedic sports medicine, and a physical therapist or athletic trainer component—providing specific rehabilitation guidelines and protocols based on the best available evidence.

Target Audience: This symposium is designed for athletic trainers, physical therapists, and others with an interest in sports medicine.

Objectives: At the completion of this symposium, participants should be able to:
- Evaluate current surgical procedures and apply rehabilitation techniques.
- Critically appraise different rehabilitation protocols.
- Utilize treatment protocols for specific surgical conditions and share protocols with other rehabilitation professionals who are unable to attend the meeting.
- Apply evidence-based rehabilitation protocols to their patients.

Exhibits: Commercial vendors are invited to exhibit at this meeting. Limited exhibit space will be available. Call Monya Floyd at 913-588-4478 or e-mail mfloyd2@kumc.edu for an application or more information.

A registration brochure will follow.
CME and athletic trainer credit will be available.
